

Essay about economic

[Economics](#)

**ASSIGN
BUSTER**

The basic knowledge of finance refers to structure of the financial market and the interaction among its participants, key variables of the financial market such as interest rates, money, financial instruments, saving and investments. This part of the program is also about different investing and financing decisions of businesses. Knowledge about the development of securities markets and derivatives of Vietnam and the world is also updated.

The advanced knowledge about finance and banking includes modules on the operation of state banks and commercial banks in Vietnam and international banks and banking decisions such as treasury management, risk management, credit rating and lending. The advantages of the program is that students have access to the most update trials including original textbooks from the most financially developed countries such as America, Australia and England.

Students also have opportunities to use statistical and financial software in their studying. Upon graduating, students also have good English to work in a financially dynamic environment. 2. Program Structure The program consists of 218 Credit points and is divided into two blocks:

Foundation Education Block and Professional Education Block. 0 Foundation Education (Apply to Vietnamese students only) Students have to accomplish 98 Credit points from the following subjects to finish the Foundation Education.
