

Get rich or die trying

Business

Dream is something that you want but most people fail to achieve it. Not literally a dream, by dream I mean like goals. Most people fail to achieve it because they're not committed to it a. k.

a being lazy. My dream has many different routes to get to it. My route is to retire from the age of 30-35 and live life to the fullest. In order to achieve my dream, I'm going to save money in my bank, go down payment a house and make that house for rent. Basically, I'm investing my money into Real Estate Agent.

In order to achieve my dream, I'm going to work and save money till I have enough to go down payment a house. Before saving, I'm going to need a good and stable job that pays okay money. If I ever lose that job, my family members will be helping me till I'm back on my feet. After a few years of saving, I'll start my investment. The steps I'm going to do is go down payment a house for years and after that, I'm going to make that house for rent. My dream doesn't stop there, I'm going to repeat the same steps till I'm satisfied with my money.

If this plan A doesn't work, my plan B is to be a youtuber that vlogs about fixing cars. If both of these plan doesn't work, I'm going to be a truck driver for many years till I'm satisfied with my money. Although my dream will take me awhile to get me where I wanted to be, it's either get rich or die trying.
