<https://assignbuster.com/national-institute-on-drug-abuse/>

steroids may be fine in the beginning and go unharmed for a long length of time but side affects surely follow. Very informative grasp readers attention all throughout continuously asking questions allowing readers to place their selves in such positions, Directed towards a audience who is currently using steroids or any form of body manipulating drug. " Fact Sheet: Side Effects of Steroid Use. BBC News. BBC News Network, 17 Mar. 2005.

Web. 11 Par. 2014.

This " fun fact" site separates fact from fabrication dividing the page into two columns differentiating what is factual and what is common myth. Listing bullet points and clearing up parts that are half true and all false. A collaborative site where readers are allowed to comment what they know and what they think they know about steroids and the site will address each one. Covering everything from where to buy the substance to the price and how to properly use it.

Very informative and helpful not just throwing facts but letting readers ecocide whether they are willing to take the risk and if so the " safest' route to do so.
