Humanity is an important part of life which tells that to help others, try to understand other and realize the people problems with our own eyes and try to help them

For showing humanity you don't need to be a rich person, even a poor person can sow humanity by helping someone or sharing his or her food, etc.

When you show humanity you have a feel click or a pinch from your inner soul which you cannot get from something else.

Every religion tells us about humanity, peace and love that is why no religion is higher than humanity.

" I should like to help everyone if possible, Muslims, Hindus, Christine's, Jew, gentile, black men, white. We all want to help one another; human beings are like that. We all want to live by each other's happiness, not by each other's misery. We don't want to hate and despise one another. In this world there is room for everyone and the earth is rich and can provide for everyone." Charlie Chaplin (<http://www. quotes. net/mquote/38952>)

Yeah today I will tell stories of three people who are the biggest example of humanity and they are human lover.

Firstly just imagine yourself I fill this class with garbage how will you feel like you will not stay in this but there is one who go in that garbage search there and you what he found. He found a dead body of child he took that body washed it and buried that body and from that day he used to search in garbage with his wife this man is no other than Mr. Abdul Sattar Edhi the lover of humanity . He is the founder and head of the Edhi Foundation, a non-

profit social welfare organization in Pakistan. He is the man who serve is whole life serving for humanity without any selfishness. He has bathed and buried over a thousand unclaimed bodies in a time when selfishness and greed are at their peak and nobody seems to know the meaning of words like altruism and selflessness. His achievements in the field of charity are bound to make one think that his name is synonymous to nobility and humanity. And today he is running Pakistan biggest network of ambulances and shelter.

Moreover his charity does not discriminate based on religion, race or gender. For him, religion is human rights. Edhi has spent many sleepless nights working and serving for humanity whether it is to bury unclaimed bodies or feeding any poor. Besides it he lives a simple life living in small house many of times he used to sleep on the concrete or on the small batch outside his shop his qualities makes him the man of simplicity and human being lover.

As Edhi Said: “ No religion is higher than Humanity”

Secondly I will talk tell you about a person who is basically a Pakistani but he is living in Canada he had son named as Ali and his son was 18 years old this man lost his son in accident. The accident was like that his son was working part time as pizza delivery boy when he was on the way for the delivery one black guy who was also of his age come before him and said him money but Ali was honest with his job he refuse that and that guy shoot him that time. When Ali's father came to know about his son's death he was in shock and after few days police caught the person who killed his son and called Ali's father to come when he reach there he came to know that boy who killed his

son is 18 years old he is orphan u people know at that time what he said u guys can't believe it Ali's father said " I don't want to do any case on this boy I want to adopt this boy and want to take all responsibilities of this boy because today I lost my son I don't want tomorrow somebody else lose his 18 years old son". Just for a minute place yourself on the place of Ali's father what will be you feeling your 18 years old son shoot dead. Ali's father this act of humanity raise whole mankind and today he has 4 orphanages in Canada where he take responsibility of around 800 children.

Thirdly the person I am talking about is the well-known personality the person who give us world cup in 1992 he is great leader and humanity lover he is Imran Khan. Most notable among his humanitarian efforts has been the establishment of Shaukat Khanum Memorial Cancer Hospital and Research Centre, named after his late mother. It is Pakistan's first and only cancer hospital that provides 75% free health care, and was built on public donations. Imran is now building a second hospital in Karachi, based on the successful Lahore model. In 1994, he inaugurated Namal College, a technical college which is now an associated college of University of Bradford.
