Pakistan came into being 14 august 1947. we think that we are independent. but the reality is not like that how we think because our politician come in the government and say that we are relevant with the problems of Pakistani people but in such they are just making money and transfer it in Swiss banks. And the most genuine problem we can not believe any one in the Pakistani politics All are corrupt by heart and soul...they come with the oath that they will resolve the problem of Pakistani people and they will save the life of Pakistani people but the reality is much bitter because poor people of Pakistan are going in graveyard slowly.

Politician are not concern with the problem of Pakistanis they don't take any initiative in the favor of Pakistani people still we are slave. I would like to ask some question. At that time when Pakistan became as an independent country because there was a nation who wanted an independent country... but now a days Pakistan need 1 nation. Who can save Pakistan?
