

This apoorva has
always been
prodigious student

**ASSIGN
BUSTER**

This is to certify that Ms. Apoorva Rayangoudar (VTU# 2BV06IS005) was a bona fide student of B. V. Bhoomaraddi College of Engineering and Technology, Hubballi, Karnataka, India at Information Science and Engineering Department from 2006 to 2010. To whom it May Concern, I am delighted to write this reference letter for Ms.

Apoorva Rayangoudar who is one of our finest, most well-rounded undergraduates whom I have known for four years as a student of Information Science and Engineering at this school. Apoorva has always been prodigious student earning accolades throughout her engineering days and continuously remained topper of the class. She has demonstrated the traits essential for eminent success in the challenging academic atmosphere. I enthusiastically recommend her graduate application for admission to the University of XYZ. Apoorva has been a student of mine in File structures, Data structures and Analysis and design of algorithms subjects. Her technical knowledge and concepts were excellent; her avidity towards programming yielded gave her superior understanding of diverse programming languages.

She has always partaken in discussions very diligently and spoke eloquently. Always has been enthusiastic about understanding the principles thoroughly and tried to apply them in practice. The best quality of Apoorva is her punctuality and readiness; she has always been keen on working the lab sessions ahead of time had been a good sport to share her thoughts with other fellow students. These characteristics inspired me to supervise her in her final project. Apoorva genuinely left an impression as a student who actively sought new wisdom. Beyond her academic excellence, she engaged

in numerous college and community activities. She worked closely with the administration in organizing technical fests and cultural events.

Also, she participated in the IBM's "The great mind challenge" wherein Apoorva together with her co-team members worked to develop an application "Save Her From Cancer" with an objective to spread awareness about various cancers that may affect women. She headed this group and worked well with others to efficiently complete the project by proving the characteristics of a frontrunner. Apoorva has demonstrated tremendous discipline and growth throughout the academic years. She is motivated, talented, dedicated and focused on her pursuits.

I am convinced that she will be able to continue to display the same commitment and diligence in the future. Apoorva is among the top five percent of student whom I have recommended for admission to the graduate program. Please feel free to contact with any further questions
