*“ Mother and motherland are greater than heaven.”*

It is true statement. We are born in this country which is full of natural beauties. We are highly patriot. We love nation more than soul. country is like a heaven for me. My country name is Nepal. It is derived from two magical words ne and pala. The word Nepal means the country of peace and love. This is a country where lord Gautam Buddha ‘ light of Asia’ was born. This is a country of Bir Gorkhalies. The highest peak in the world Mt. Everest is located in country which makes country in the top.

There are many mountains in my country therefore it is called mountainous country. Many rivers flow from mountain to the hills and plain land of terai. My country Nepal is divided into three geographical regions and five development regions. country national flower is rhododendron, national bird is Danphe, national col is simrik and national weapon is khukuri. My country Nepal which is very small in the world map but to me my country whether it is small or big it is world for me. Many national personalities are born in country life : Prithivi Narayan Shah, Bahadur Shah, Rajendra Laxmi and so on.

History of country Nepal is very powerful. All the pages of history are filled with hot and red blood of national heroes. My country Nepal is the Yam between two big stones. I mean it is between the two biggest country India and China. country Nepal is divided into many ethnic group. country is multi-caste, multi-culture, multi-tradition and multi-religious. They are of different caste but they are living in ‘ unity in diversity’ without fighting in the name of culture, religion, caste, etc.

They are living in peaceful environment. any tists by which numbers of tists are increasing day by day. Tists are attracted by country by which country can move ahead in its economic status. Foreign currency which tist left in country helps to make country more developed. We Nepalese people do not need the big building, expensive things etc. We are happy by the smell of rhodonderon. We are happy by the natural beauties which are located in country. We all know that there is a great saying, “ Hario ban Nepal ko dhan”. Yes it is true green forest are wealth for country.

More than 80% of total population of the whole country is depends upon agriculture therefore country can be said as agricultural country also. Many rivers, green forest, mountains, lake, etc. makes country in top. My country Nepal is heaven for me. I love my country very much. I fill proud to say that I am Nepali, my country which is full of natural beauties is everything for me what I want. We all Nepalese are ready to sacrifice soul to country Nepal. We really feel very proud to be Nepali. So, that we say country is pride for us.
