

My academic goals

Education

As the competition within the field is increasing day by day, an associate degree is insufficient. The reason for opting for an accelerated BSN degree is my interest in starting a job within the career as soon as possible.

I have a passion to work in the field of emergency medicine as it nourishes my interest in making a difference in the lives of others. By pursuing my education in this field, I believe I will be able to make a difference. My contribution to the community so far is limited to my work as a 911 employee however I plan to contribute more in every way possible thus opting for a field that will help cure the diseases within the people of the community.
