Academic Achievements Academic Achievements Math Math Science

Science Thesis Statements: 1. The Academic Achievement of the sophomore students in Math and Science is generally implicated by three different types

of social networking sites such as: 1. 1 The Blog sites create a great impact

on the academic achievements among sophomore students. 1. 2 The Video

and photography Sites create a greater impact on the academic

achievements among the sophomore students. . 3 User Generated Sites

creates the greatest impact on the academic achievements among the

sophomore students. Specific Problems: 1. What is the percentage of

sophomore student who visits social networking sites? 2. What are the types

of social networking sites that sophomore students are mostly engaged in?

3. How much time do sophomore students spend in social networking sites

such as: 4. 1 user generated sites 4. 2. 1 facebook 4. 2. 2 multiply 4. 2 blog

sites 4. 3. 3 twitter 4. 3. 4 tumblr 4. 3 Video and photography sites 4. 4. 5
