The term school discipline is commonly known as School Rules and Regulations. BY correcting misbehavior and developing self discipline, school help to prevent the future occurrence of behavior problem. If we remove the discipline from the education, the output of education will be zero that is the discipline is the heart of education. We cannot think about education without discipline.

Student life is a period of learning and grooming. Discipline plays significant role in shaping the personality and moldings character. A student of today is a citizen of tomorrow. Hence, it is very important that children should be discipline in school, so that they might became worthy citizens of their country. Citizens of discipline nations can work more smoothly and are filled
