the city is more comfortable than village life. village is not devolved area here we can't get easily many facilities like transportation facilities, higher education facility, irrigation facility, electricity facility, health facility, communication facilities etc. Many peoples of village they most have done hard work in their field to produce many kind of grain production but the outcome is little than their labor. They use to go long distant to take drinking water. There is no transportation facility that's why they walk on foot to go one place to another place. Here are some disadvantages of village life no proper hospital nearby. no proper road, only dusty little paths. no shops close by. education is less available. villagers have to walk for miles to get fresh water.

1. City has many advantages over village, because city modern life facility are easily available, as telephone , gas , internet, schools, colleges, universities, hospitals, industries, factories, roads, airports, railway stations and many more, but most village are deprived of these many facilities like many villages no facility of gas, telephone , roads, etc.
2. City life is more advanced then village life, because in city you can get education facilities easily, you can find college or university of your own choice, more ever you can learn modern technologies easily in city from skilled person, but unfortunately these facilities are not easily available.
3. City people have more job opportunities have as compare to people living in villages, in city you can find job in factory or even you can start your own business, where is village is mostly agriculture based, so they mostly depend upon agriculture crops income.
4. In city you can find different health facilities like different government and private hospitals , but in village you can not find more health facilities.

DISADVANTAGES OF CITY LIFE. there are some

disadvantages too. The cost of living is very high in the city. Most goods are very expensive. There is no fresh air and pure water. The environment is polluted with dust, smoke, garbage and dioxide gases from factories. Most of the people who live in the city are corrupted. So there are lots of crimes in the city. Many thefts and murders often take place in the city. The city is always busy and noisy. There are a lot of vehicles and people in the road. The streets are dusty and unclean. So it is hard to lead a healthy life in the city. As well as there are so many advantages in the village life. Mainly the people of the village live in unity and peace. The villagers earn money very hard and earn money enough for live. So they live less competition with each other. So they can reach a good position. They have more friends in the community since it is small. The village people always try to protect their traditional habits and culture. The village has clean air and the environment is very beautiful. The village has less noise and rush. So the pollution is less. The village has not lot of vehicles. So roads are less dangerous for driving cycling. They can get fresh vegetables and fresh fruits. The environment of the village is pleasant and silent and it has scenic beauty. The village has not only good points, but also it has bad points. The village has intelligent people. But many people are not educated. Villager's children go to the village's school. They are not go to the city's school. They have difficult to keep up with new developments in their field or profession. Same day villagers live same place. Village people have to face many difficulties for their lives , like traveling problems. They have to go to the city for supply their needs. Although the life in the city is more comfortable than village, I like village life than city. 5. But in city there are also some problems like

pollution, traffic jam, tension and you have no free time to meet with relatives and friends, these problem are not found in villages, because of this village people are more healthier and energetic, because they have pure food available them no pollution problems.
