Sample inventory documentation

Science, Computer Science

IC Inventory System IC Inventory System is an on-line system made for Usep-Institute of Computing to process of listing supplies and materials with description, quantity and value of each. History The Institute of Computing is committed towards the growth of Southern Philippines by developing Information Technology professionals, entrepreneurs, managers and new technologies. During its initial implementation last June 26, 1997, the Institute came-up with a plan to prepare the University as a Nodal Training Center in Region XI. Consequently, it grew so smooth because of the support given by the neighboring state universities and colleges. In June 1998, a degree program " BS in Computer Science" was offered to cater the growing demand of the students to study in the field of Information Technology. It also started a program " MS in Information Science" last S. Y. 1999-2000, and a program " BS in Information Technology" was also implemented in SY 2001-2002. There is also an evening program that accepts working students who are willing to study at night. Mission &Vision Mission " The Institute of Computing is Committed to be in the forefront of technological advancement and ethical practices in Research, Instruction, Extension and Production." Vision " A dynamic and Balanced Leader in Information and Communication Technology Innovations." http://ic-inventory. comze. com/ AMA EDUCATION SYSTEM LUCENA CAMPUS LC Pc Net Sales and Inventory System A Case Study Presented To The Dean and Faculty Of Department of Computer Studies AMA COMPUTER COLLEGE LUCENA CAMPUS In Partial Fulfillment Of the Requirement in the Subject System Analysis & Design Irish R. Banayat Ana Luna Loberio Jasper Amiel R. Magnaye Mhelieza R. Magnaye October 2010 CHAPTER I INTRODUCTION Background of the Study Technology has

taken a big leap forward in 21st century, with computer programs, electronics upgrading by the month & even by the day.
