Research plan: I plan to conduct my research on the issue if animal rights organizations have gone too far in promoting a vegetarian diet. But also on those who do not encourage this and the importance that meat has.

To actually putting a stop those who are abusing these animals. VI. I agree that everything on earth is for the utility of humanity. But that doesn't give any one the right to abuse, or be cruel towards an animal. We should focus more on stricter policies, and stopping those who make these animals suffer pain. Just because an animal is killed to provide meat, is no reason to turn vegetarian. Humans have a right to eat meat. The abuse has to stop, so that we are provided with a healthier meat.
