

Student our goals. a
level is a

[Finance](#), [Investment](#)

Student life is considered as the most important period of our life. Our future dreams, desires and hopes depend upon it. Once our character is formed in one way, it cannot be changed easily. If we make right use and receive good education during our student life, we shall be successful in future. On the other hand, if we aren't serious at this time, we can't achieve our goals.

A level is a period which is crucial for a student, it helps put things in perspective and builds one's character in terms of duties and responsibilities. Moreover, all what I have seen during my academic journey is students being pressurized to get good grades. i. e.

A* or A which is quite upsetting because I believe that good grades is not why we are enrolled in educational institutions. Ideally children are enrolled in schools to get a proper education, to learn, adapt, progress and develop as intellectual individuals who can benefit the society as a whole in one way or another. The greatest misfortune of all is that teachers and parents are the ones who endorse this behavior. The pressure on students to get good grades leaves a negative impact on them. This pressure starts while they are young and builds up as students get older which often leads to depression, anger, and cheating. I believe that instead of chasing after grades, people should learn for skills and knowledge as it is what actually helps us in future and practical life. 'Selecting the right college to attend is an investment into a young man or woman's future.' Choosing a college to apply for my A Levels has not been a difficult decision for me as I am sure that Cedar should be my first preference.

Indeed, it is among one of the leading ALevel Institutions. It has a bright name in all the activities when it comes to different known schools coming to a single platform and so for me Cedar becomes a wise choice to continue with my studies. Its educational programs, extra-curricular activities and variety of clubs it offers are the most fascinating to me. The college seems particularly well-suited to motivate individuals who are driven to secure their own success. I have heard excellent things about the Cedar faculty which have motivated me strongly to become a part of Cedar. I am enthusiastic about studying here and exploring all what it has for us. With a restless spirit and fierce eagerness to learn, I believe I would be a great asset to Cedar's student body and hope to raise the name of Cedar College by my devotion. I plan to pursue my education with a new kind of passion, one that becomes stronger for me every day which is the passion for independence and learning.

I can add energy, ambition, and most importantly, a learning attitude to other students. Lastly, being a good student in academics, social and outgoing, I assume that I would be a good fit for Cedar. As I am a determined person, I strive hard until I get what I am aiming for. I am a passionate and hardworking student as I strongly believe, success is the result of preparation, hard work and learning from failures.

Cedar might be a challenge for me but there is no fun in life without challenges.
