The following table describes the contents.

File or folder Description

default. htm File required to open the Web page.

readme. txt File that explains how to install Microsoft

Internet Explorer version 4. 01 and open the

Student Materials Web page.

webfiles Web page files.

To view the contents of this course, you will need:

1. A computer running Windows 95, Windows 98, Windows NT 4. 0, or Windows 2000.

2. A VGA or Super VGA (SVGA) monitor capable of displaying 256 colors.

True Color recommended.

3. Microsoft Internet Explorer version 4. 0 or higher.

<https://assignbuster.com/win-2000-12349/>

For best results:

1. Configure your monitor for 800 x 600 resolution and for True Color.
2. Under Settings on the Start menu, set the taskbar to Auto hide.

To Install Microsoft Internet Explorer 4. 01:

* Visit the Microsoft Internet Explorer download site at

<http://www.microsoft.com/windows/ie/download/default.asp>

To start the course:

1. Display the contents of the C: drive.
2. In the MOC folder, open the nt1555a folder, and double-click default.htm.
