

There so low. your  
idea should be

[Life](#), [Friendship](#)

There are people who don't get ideas and there are some people who cannot manage their so many ideas. They can get ideas from anything. But creative mind can be cursesometimes. It happens so many times that you have so many ideas that you get confuse to make a right choice. There are so many risks if you have so many ideas like you lose focus from the main tasks, you feel distract, your works are incomplete and many more.

Use these techniques to manage so many ideas when you have not enough time-

- 1- Select the idea that triggers you the most Among all your ideas decide which idea will help you grow and do something great for yourself and your business. Select an idea that is achievable and realistic. You can't dream of buying a car by loan when your earning is so low. Your idea should be bold and unique.
- 2- Analyze the idea that you have decided to use Before starting on idea you should know analyze it properly.

For example-if you decide to use this idea then how much time and money you have to spend, what is the success rate of your idea, is it profitable, is it really a great idea and many more? It should be in your field, for example you want to create software and you have zero knowledge about how to do it then it will get difficult for you to achieve your goal in decided time period.

- 3- Categorize your ideas Arrange your ideas in a way that makes easy for you to select. Arrange your ideas perfectly, you should which idea you can use in which situation. It should be clear in your mind that which idea is most important and helpful in your business right now. Make categories of your ideas like home, family, business and so on.
- 4- Make a diary of ideas Don't ignore the others ideas or thoughts in happiness of one great idea.

You cannot use all your ideas in one day, so create a bucket in your mind and put all your ideas there. Or make a diary and write all your ideas there. Read these ideas and for long time if you did not use any of these ideas then dump them. You can also pass your idea to your friends may be its useful for them. 5- Start implementing After your 'Eureka' moment about idea, is very important to implement it.

Don't stand over the process of implementation process because if your passion for the idea is gone then you won't be able to utilize this idea. Don't wait for the opportunity or the right time, every day is a new day and with new opportunity.
