

Seychelles relish from three major kind of environments,

[Art & Culture](#), [Music](#)

Seychelles is known for encompassing world's richest land where one can go and enjoy fishing apart from boating and snorkelling. Seychelles is basically divided into terrestrial, marine and mountainous sort of national parks and because of that reason it has a diversity within one country, giving tourists opportunity to get relish from three major kind of environments, terrestrial, marine and mountainous. Bays provide the tourists with the opportunity to relish from the sun-bath along with peaceful and calm surroundings. The beauty of the marine environment is highly captivating and attracts the tourists from around the globe. Hilly areas attract the tourists for its astonishing trails and tracks. In addition, the largest park of Seychelles is mountainous. It serves as a dreamland for the adventurous people and its exotic beauty attracts the tourists from around the globe.

It comprises many National Parks, some of immense importance, having roots in history and serving to reserve their traditions and culture. Naming some most famous ones; Baie Ternay Marine National Park; Morne National Park of Seychelles and Morne National Park of Seychelles. Baie Ternay Marine National Park The speciality of this particular park of Seychelles is that it is part of marine environment and there are no roads to get here, tourists can only go via boating and enjoy the beauty of marine vista.

Ternay Bay is highly beautiful in terms of its surrounding, all green and refreshing, bringing the ultimate calmness to visitors. One can see while being on beach, the beautiful huge whales roaming and swimming here and there in the bay while taking sun-bath and reading a book maybe or listening to music. In addition to that, the clear water in the bay provides view of the

marine life living inside and enables tourists to enjoy the planktons.

Morne Seychelles National Park Morne National Park constitutes of 3, 045 hectares, that's the reason it is considered as the biggest park of Seychelles. One more attribute that increase its significance is that, it is the oldest one, created in 1979 year.

The hilly nature of Morne Seychelles park increases its glory, enabling the tourists to relish exotic trails and tracks. This park is located at the highest peaks of the Island Mahe, Seychelles. On the way, there are beautiful birds of Seychelles, entertaining the tourists.

Some birds of Seychelles worth mentioning include Seychelles Bulbuls, Sunbird and Seychelles swiftlets. Sainte Anne Marine National Park The Sainte Anne National Park is known for its deep roots in history, as it served with its base for Royal Marines for the purpose of the defence of Victoria Harbour in the past. It holds greater importance for the inhabitants of Seychelles as it reserves their culture and traditions and provides visitors with an insight of their life style and history. This marine park comprises 6 islands, rich in exotic beauty and eye-catching vista giving a look of heaven to tourists, adding to their unforgettable memories.
