This has been my first experience of feeling this way since moving to the USA from my home country, Taiwan. Additionally, the cultural diversity at the college has made it easy for me to fit in with the community and to form lasting friendships.

I enjoy spending time with different people and I enjoy working as a team. Throughout my life, both in Taiwan and in the US, I have participated in many extracurricular activities. Currently, I am both studying at college and working in paid employment, as I am unable to afford the costs associated with being a student. Therefore, if I were to secure some financial assistance, I feel I could spend more time on my studies and would be able to complete my education with a degree of a high class.

I am committed to my college, my life as a student, and my prospects for the future. I am keen to continue studying at Pierce College and I honestly do not think there exists a better college for me. I sincerely hope that my scholarship application is successful, and that I can study more thoroughly towards my dream of becoming a lecturer.
