PLACE In the public market, because many people that have a convenience store go there to buy a whole selling product to their stores. It is because the price of the product in the public market is lower than the price if you go in the supermarkets.

Our target markets are those people that have a convenience store that usually go to public market for whole selling. PROMOTION We are promoting our product by the use of a whole selling. For example, when the consumer buy whole sale of pastillas they will have a discount like we can give him/her 3 packs of pastillas for only P100, so that the consumer will be convince to

buy our product again and we can also offer them to be a supplier of their convenience store.
