

To open not only  
inside the country but

Business, Strategy

To sum up, senior high school is not just about additional two year high school. It is about the advance education given to the students to have a better economy in the near future. Senior high school is just a step. To attain globalization, people should be open-minded and way more practical as what senior high school curriculum teaches students. With the help of senior high school, globalization is not that hard to achieve. Lots of sectors and issues will be covered and will change and transcend its limitation to achieve prosperity.

Cultivating and preserving culture is much more important to attain this success in life. Another thing is, senior high school's major role towards globalization is the awareness and consciousness towards any other issues around the area. Students are trained on how to be a better citizen that will serve and benefit the development of the country. Senior high school will try to address different issues and will lead to problem-solving mechanism that will surely contribute to the betterment of our society. Furthermore, as listed in many sites, Philippines is also known as country with lots of poor people and poverty is a problem. It is due to the inconsistency of support and education given by the government to our youngsters. With the help of senior high school program, more and more innovations and employment or jobs and even opportunities might open not only inside the country but also big opportunities outside the country.

Thus, advance education is a good change, especially in the Philippines. In economy, the part of senior high school in globalization in terms of economy particularly in advanced education, is vital for learning economy improvement. Advanced education established an important role to create,

spread, information exchange and overflow of learning to the business.

Employment is the key to success so with the senior high school, employment is not a problem as long as you graduated your grade 12 core subjects.

Government everywhere throughout the world are endeavoring towards high talented and high esteem economies. Conventional variables of creation are never again thought by the main supporters of financial improvement and development. An information economy has expanded the interest for a profoundly thought workplace particularly a workplace with college degree. The Philippines' economic status remained solid to overall headwinds.

While slower than foreseen overall recovery weakened the net admission surging the nearby demand which pushed the yearly GDP advancement rate from six to eight percent year on year. It expand in terms of money related methodology position and helped capital game plan to sketch out by 20.8 % per year on year also, drove by improvement region. Therefore, with the help of the senior high school, by the use of the educational knowledge and awareness, Philippines' economic status will increase year by year. One of the most major factors in developing this resources in the human capital is education. Therefore, education is one of the most important factors that can lead every country to achieve a sustained economic growth.

Education has been accordingly turned into a critical piece of each administration's strategy. The role of senior high school in globalization is growth and because of their knowledge in terms of economy, which is the very important in every country because resources are part of every growths of a particular country. A good and workforce is by making use of other

resources that can lead a normal economy to prosperedone. Globalization isa procedure of association and mixture among the general population, organization, and legislature of various countries. A procedure driven byuniversal exchange and venture and supported by data innovation. This procedurehas consequences towards the earth, culture, political frameworks, financialand flourishing, and on human physical prosperity in social orders far andwide.
