

# October on revenues from oil. also, to

[Business](#), [Management](#)

October 24th, 2017, my long-term goal has changed after crown prince Mohammad bin Salman announced the biggest project in Saudi Arabia history called NEOM. This project meant to transfer the country to become a global center for trade and investment to reduce dependence on revenues from oil. Also, to expanding and supporting the private sector to create job opportunities and to build a mega international business zone.

Its strategic location that connects Asia, Europe, and Africa will help it to become a future finance market. This will help to move the country from an empty desert to a smart business city? and make it a place for the dreamer. My long-term goal is to become a financial analyst and be fully prepared to take a lead in one of the largest companies in the new project in the middle of the desert. An MBA degree will help to have a deep understanding of the global economy and its markets. Master of Business Administration will help me to have a deep understanding of the global economy and its markets.

And have a deep understanding of the global business environment.

Currently, I am a Master student in Information Technology program at California Lutheran University. I am seeking to join MBA program at Chapman University and I believe this is a first step towards achieving my career goals. To succeed, I need to build my knowledge and develop my leadership skills to become a professional Financial Analyst and International Management Consultant. To succeed, I need to develop my knowledge of advanced corporate finance, marketing, and management, I need to build my knowledge and develop my leadership skills to become a

professional Financial Analyst and International Management Consultant. In my short-term goals and after completing my MBA, I aim to get a Ph. D.

degree to become more competitive in a world full of talented abilities.

Chapman is one the top-ranked school in the United States. It has a large number of ethnic groups from the entire globe, and studying with them creates outstanding environment feasible for learning and grooming the personality. A positive competitive climate and interaction between students and teacher are ideal. This will enable me to develop my skills in general management and financial analysis.

Also, will give me the necessary skills in advanced technical knowledge and business knowledge to make my dreams come true by becoming part of NEOM or as they called it Dreamland. An MBA from Chapman is an important step towards achieving my career goals at this stage of my life. Today I am a student, tomorrow I will be a leader in a large business, and someday I might own a business transforming the business and technology worlds. I consider myself as a dreamer and I want to reserve a place for me in the future.
