Thanks to our friends at , we've rounded up some can't-miss deals. Check it out:

Use Code50OFF699. This is one of Dell's most popular and best selling desktops. Users love it for its potential for expandability, better design and high-quality components. This particular set up is one of Dell's more powerful configurations with an i7 processor and can drive two monitors with its discrete video cards.

This treadmill features a lifetime warranty on both the frame and motor, up to 15-levels of incline and has an impact absorbing shocks built into its space-saving foldable ramp. Lastly, you can get an optional Bluetooth adapter to connect to your smartphone and track your progress. This is pretty close to a gym-quality machine, runs fairly quiet and smoothly, and gets good reviews.

This is the same low price as elsewhere but includes a \$300 Dell gift card you can use to buy tons of other great electronics and computers Dell sells. It has all of the latest tech you can find in a TV, support for HDR, a curved display, and a 4K panel.

If you've done any sort of wedding registry you know that All-Clad is the cream of the crop when it comes to pots and pans. They are made in America, carry a lifetime warranty, and will last a lifetime. They rarely go on sale and a single saute pan can sell for more than \$100. If you don't need all

those pans, you can also get the 7-piece for less than \$300, which has all of the most highly used pans you will use.

Clip \$5 off Amazon Clippable coupon. This is one of the best prices we've seen on an electric toothbrush and it gets great reviews. We highly recommend traveling with a toothbrush like this if you have a nicer electric you don't want to risk losing. Or if you don't want to spend on a \$100 toothbrush this has the most important feature of a 2-minute timer which dentists recommend and has Philip's patented sonic technology.
