Experience, Human Nature

Adrian Carl C. Flores Dorm: matapat Age : 16 Sex : Male Birth Date :
September 30, 1993 Address : Kapuong 1993 kapilya, Tondo Manila
Educational Attainment : High school Civil : Single Occupation : Delivery Boy
Date of Admission : December. 22, 2011 Date Administered Test : February
7, 2013 Case : Frustrated murder

Social Worker : Mam Shiena I. General Observation The subject wears Sando,
Black Short . He is in fair complex, black eyes and bald. Noticeably he was
some mole in his neck . Among the 4 siblings. He is the youngest. At the very
young age her mother left them and the only one that will take care of them
is her father. But later on her father died so that no one will lead them to
make good decision making. The absence of his parents is one of the factor
that will lead him to do undesirable things in life. The subject while talking
the test was quit.

But when he saw some of her dormate he talk even though I am in front of
him. And hesitant especially in drawing because he claimed that he does not
know how to draw perfectly. On the other hand he was able to draw as much
as he could. I. Test Administered Date Administered DAP11-16-12 SSCT11-20-
12 RAVEN11-21-12 BENDER11-22-12 II. The result and interpretation DAP
The test showed his tendencies of being suspicious to other people. He
suffers from oral aggression . He has a problem to control his anger. He has
sexual conflict and conflict about his body. SACH SENTENCE

Based on the test result, it shows that the subject has conflict towards his
parent. He wishes the presence of his parent. He has a mild difficulty in
accepting challenges in her life. He has difficulty at work . he feels rejected
and isolated but he tried to be optimistic. BENDER The test revealed that the

subject is emotionally disturbed maybe because of the quickly losing her parents. There is an evident anxiety and difficulty toward her interpersonal relationship. He tried to be socially accepted but his suspicious surface take place when he is in conflict. RAVENS PROGRESSIVE

Raw Score : 40 Percentile : 25% Grade : III Level of Intelligence : Intellectually Average IV Summary The subject appeared to Deny persistent feeling of guilt and insecurity. His poor disposition was a factor that hinders him and made him suffer from a feeling of inferiority and and isolation that may cause him depression. Only if he has a strong family foundation, it may display positive visualization towards his goal in life and has a strong decision making.

Jason Ubina Dorm: Reception Age : 16 Sex : Male Birth Date : November 19, 1996 Address : 1464 Ilang -Ilang St. Pandacan Manila Educational Attainment : High school Civil : Single Occupation : Computer Technician Date of Admission : March 9, 2013 Date Administered Test : February 7, 2013 Case : Marijuana User
