Lesion Restrain mentions that the crisis does not have to be so bad. People just need to know how to make money from a bad market and there are even people who have been waiting for this crisis, so they could make money. This all is strange, since everyone is negative about the economic crisis. Lesion tells us that it does not have to be a problem and if he can do it, more people should be able to make money out of the crisis. He also tells us that we need to prepare and not just wait.

He compares the crisis with a tumor. It really got me thinking never thought like this about the crisis, Duration of entire activity 35 minutes ASSIGNMENT find an article on a current news item that interests you on the Internet.  Opinion/summary/review/other There are a few differences. One of the
 differences is the length of the articles. The article in the Telegraph is shorter
 than the article in the Sun, Also the type of language is different. The article
 from the Telegraph is harder to read then the article in the Sun. The words
 used are harder to understand. The sun also seems to have less respect for
 mister Cameron. They use PM instead of prime minister.

Not a big difference but it doesn't show that much Of respect. I prefer the
 article in the Sun, it's easier to read and understand. Presentation key words
