

Question of clarity

Technology

It does not only assist the user is using it with a Television set, it even helps the user in using the product with different systems such as the computer system. For example: on page 9, 10 and 11, the guide writer not only clearly informs the audience about the wires that come with the audio system, he/she even informs the audience about which wire will be used for what purpose.

Question of Clarity

The guide writer has made good use of all the Cs of technical communication. The guide is concise and clear and is written by a good English writer who has taken good care of all the technicalities of writing in English. The writer has even used images to make the information easy to understand.

Additional Information

The guide does not only provide information regarding how to use the device, it even provides information regarding the warranty of the product. The manual has taken care of every bit of information including the contact information.
