

Research summary and ethical considerations assignment

Research Summary and Ethical Considerations select either the qualitative or quantitative study method for this assignment. In an essay of 750-1,000 words, summarize the study, explain the ways in which the findings might be used in nursing practice, and address any ethical considerations associated with the conduct of the study. Refer to Resource Research Summary and Ethical Considerations Guidelines for suggested headings for your paper.

Prepare this assignment according to the PAP guidelines found in the PAP Style Guide, located in the Student Success Center. An abstract is not required. This assignment uses a grading rubric. Instructors will be using the rubric to grade the assignment; therefore, students should review the rubric prior to beginning the assignment to become familiar with the assignment criteria and expectations for successful completion of the assignment.

Research Summary and Ethical Considerations Guidelines.
