Sazanne Johnson Professor Mc Goldrick ENG 115 April 13, 2011 The Writing
style of Russell Baker 2 Author Russell Baker is known for his wit and sense
of humorous writing style, but he did not always possess this style once
quoted as saying “ I wrote like Hemingway, An awful lot of us wrote like
Hemingway. All of our stories were set in bars and were about embittered old
men. That was until his Professor at Johns Hopkins University seminar told
them that “ Hemingway’s good, but he’s out. ” (Rice, 1997, para. 4, 5). It was
then Mr. Baker developed his own style or voice one might call it, one that
would later earn him two Pulitzer Prizes. In his memoir Growing Up the
reader can defiantly see how from the beginning Baker had his own style and
did not need to adapt that of anyone else.

In the excerpt On Becoming a Writer Mr. Baker’s writing style was that of
great wit, and humor for instance the way he described his 11th grade
English professor Mr. Fleagle as very prim from his eyeglasses to his smile
was done in a very primly fashion. When given the assignment to construct
an Essay the topic he choose was very humorous as well “ The art of eating
spaghetti just by the reaction from his peers when read out loud by Mr.

Fleagle one felt as though they were in that long ago class room as a student
it was then that Mr. Baker knew his true calling and the reader knew it as
well. The Writing style of Russell Baker 3 References D. Roen. , G. Glau. , &
