Teachers? They are the one who give us instructions, help us to gain more knowledge and to choose the best for us. We all know that it is hard to be a student especially when we do mistakes. We are a big disappointment for them, but not all the teachers think that way. Sometimes they just want us to learn from our mistakes. In Lakes City Christian School, teachers are the best model for every student.

A Filipino teacher who graduated in LSPU, Ms. Jonna F. Necerio, is the adviser of 7-Simeon. She believes that every students need to improve not just their knowledge but also their whole personality.

Have knowledge in cooking and a Filipino major, Ms. Chealky Exconde. She also graduated in LSPU. Good attitude, right conduct and more knowledge especially in Filipino, that's what she believes in.

The adviser of 8-Zebulum, Ms. Jean Romulo. She loves solving problems, deriving equations and everything about mathematics that's why she's a math major. Artistic alumni of DLSP said, " If the students do not believe that mathematics is simple, it is only because they don't realize how complicated life is."

" A teacher don't need to talk too much, it is more important that your students understand what you we're talking", Ms. Rose Ann Bautista said, an

English teacher and the adviser of 7-Judah. She graduated in DLSP and her talent is to draw.

An AB Theology who graduated in Gospel Sower Educational Foundation (GSEF), Ms. Agnes Cabaya. She knows how to sing, to play organ and guitar. She believes that teachers need to impart knowledge to the students.

To trust in God which gives her strength and that she can do all things with the help of God is what she believes in. Ms. Jenelyn Parcon sings and knows how to play guitar. She graduated in GSEF.

For us, teachers are just teachers. They we're just teaching us about things we need to know. We don't understand that they are part of our lives.

Teachers are our second parents. They are the one who help us to reach our goals. So love teachers and give importance to them.
