Clinton reintroduces 21st century housing act

New York, NY 2007: Amidst new Senate action and the passing of this bill, homebuyers will now get more catering and more advantages to home buying with 1st Choice Appraisal. This is the right choice for you and your bank or mortgage company.

This new bill offers a more modernized FHA that will:

Allow the FHA to make investments in both personnel and its information technology infrastructure to help meet the market demand for affordable mortgage products and work more efficiently with mortgage lenders and borrowers.

Increase the FHA's loan limits for housing in high cost areas, which will help create more home-buying opportunities in high-cost of living states

Allow the FHA to develop responsible, alternative mortgage products such as reduced down payments and longer term mortgages to meet the demand of lower and moderate-income families. <http://www.senate.gov/clinton/news/statements/details.cfm?id=271038>
