

To intellectual power
and it is this

To state in Emerson's words, " a certain wandering light appears and is the distinction, the principle we wanted." Emerson states that while air and water are responsible for dissolving a few things, intellect dissolves gravity, laws, methods, fire and also the tiniest unnamed relations of nature. Intellect thus is the cure for each and every thing according to Emerson. The abstract truth is the result of the combination of intellect and intellection. It is only with the help of intellect that a person is in a position to rationalize as to what is right and what is wrong. If intellect would have been absent in an individual's mind, there would have been no difference between that individual and any other animal.

Only human beings possess intellectual power and it is this intellectual power that separates an individual from all other living beings that exist on planet Earth. Behind the success of any individual lies his deep intellectual power alongside his will-power. Will power without intellectual power is like a car without its engine. Human beings are blessed because they are actually intellectual beings. Intellect is possessed by all the individuals and proper application of intellect leads to phenomenal success.

Emerson states " The intellect pierces the form, overleaps the wall, detects intrinsic likeness between remote things and reduces all things into a few principles". In these lines, Emerson explains the deep meaning of intellect and how all the world actually exists because of the intellectual power. The sooner an individual realizes the value of intellect, the better. Proper reasoning is impossible without intellect. God or the ultimate truth enters into the mind of an individual only through intellect. Intellect backed up by reasoning provides light into the darkness which has evolved into the minds

of the individuals. Intellect helps in differentiating between good and bad.

Once an individual understands the functioning of the intellect, he can easily mold the way he is living and achieve unimaginable success and power, the success and the power that was unknown to him or her before.
