

Christmas

**ASSIGN
BUSTER**

Christmas is the favorite season of the year for most of the people in the world. In Christmas the people spend time with the family and friends. Christmas is a time to be with a special person. For me Christmas starts the day I putted my Christmas tree, a party on Christmas Eve and the day of Christmas. The day after thanksgiving is when my family and me putted our Christmas tree. My Christmas tree was a 7-foot tall tree, smell really good, and is really big. In the tree we putted four boxes of four houndre lights and a lot of decoration. In the top we put a beautiful with angel. This I show I start my Christmas. In Christmas eve, that in Puerto Rico is called noche buena, the day starts when my uncle killed a pig, then we do the morcillas, my godmother do the arroz con dulce, and the tembleque. Then we decor my aunt house about 6: 30 my family starts to get to my aunt house. In the party we have a lot of music, a lot of food and a lot of family and friends. About ten the little kids went to sleep and the rest of the family spend the rest of the night dancing and singing in the karaoke. The party finishes about four in the morning. This day is Christmas and we go to our houses to see what Santa brings. In Christmas day we opened our gifts and this year Santa brought me a really nice and elegant swatch watch. This Christmas was a really emotional one because my mother went to live to the united state. But I called my mother and talked a lot with her and I sent to her the pictures of the Christmas Eve party and Christmas gifts. This I show my Christmas is. To summarize, my family and me have a really good time and Santa brought me a really nice gift. To all the people Christmas is a really special time to be with your love one.
