American psychological association

Due to follow a guide for citation and assignment paper, the American Psychological Association PAP) style created a gulled foracademicformat specified In " Publication Manual of the American Psychological Association" In July 2009. (American Psychological Association, 2014). So probably you'll wonder why and how it is useful. PAP format basically help you to do a better research and provide a good list of reference avoiding copyright issues and/or plagiarism.

Besides, paraphrasing can be use, but only with citation in the text, since you haven't do the research directly, just taking it from the source, giving credit to the original author. Furthermore, for school/college/ university paper work evaluate your ability to collect Information to build up your work. For Instance, a research for having a good Idea, and be able to support It with source, is equivalent a good work. As it was mention before, it will give the document a specific format in which help everything to be in order and at the same time to provide a professional look.

General rules are to be written in 12-point size Times New Roman. For the title, don't underline or bold it. Double-space with uniform margins of 1 In (2. 54 CM). Hanging indents at the reference list (starts on a new page ND also arrange sources In alphabetical order with only the author's given name (not full name) with space between Initials. Provide the year of publication edition number, place of publication, publisher name, and the page. For web pages, include the day it is retrieved.

In addition, capitalize only the first letter of first word in a title, and italicize the title. (BBC The Library, 2014) Provide number of pages at the top right

header of the page, and at the left size the title. (Lecher C. M. , E. A. Singer, & American Psychological Association. 2008). In order to gain a complete understanding of PAP format, It Is necessary to read the gulled provide In books or even atGoogle, following the examples provided and avoiding the mistakes.
