

Learning (synonym is
conditioning)

**ASSIGN
BUSTER**

Stimulus generalization tendency once a response is conditioned for similar stimuli to elicit the similar responses

Ex. Flinching with similar words- ban, ran, cap
Stimulus discrimination learned ability to distinguish between a conditioned stimulus and other stimuli that do not signal an UCS

Ex. Other words that don't sound like can elicit no other responses

ONLEARNING (SYNONYM IS CONDITIONING) SPECIFICALLY FOR YOUFOR

Extinction the diminishing of a CR. Happens when an UCS does not follow a CS. Ex. Can spoken several time's without a squirt over time person fails to squint
Spontaneous recovery In times of stress can't unlearn something so will go to original association
Reconditioning fewer trials are needed to elicit a reliable CR
