

Effects of social problem among youth essay

**ASSIGN
BUSTER**

The social evils that are plaguing our society today could hardly be catalogued, they are uncountable in the true sense of the assertion . Among the prominent social problems are the escalating crime waves , religious intolerance , disrespect for elders , laziness and lateness of duty , widespread of diseases , ostentatious spending, abortion , pre marital pregnancy , elope (run off secretly to be married and usually without the consent or knowledge of one's parent) , disciplinary problem , psychological problem , slow down development of the country , and alcohol consumption .

These are the effects of our social problem among Malaysian youth . First of all we will discuss the escalating crime waves among our Malaysian youth . These days our Malaysian youth are involve in many crime whether its small or big . One of the most common among our youth are drug abuse . Its sad to see the future of our country the be involve with this kinds of social problems , at a very young age they are throwing their lives and future away . We the society used to think that drug abuser are only among uneducated society and parents .

This statements has change among the years as the children from educated and high society parents are one of the biggest drug abuser . These are the Malaysian youth with the free flow of money to buy all sorts of drug such as marijuana , ecstasy , cocaine and many more . This statement does not mean that the youth from the low income society are not involve . This are the youth that will cause many more crime due to their addiction to drugs . The drug abuser that come from this society does not have the free flow of money as the high society youth have to they will result to other ways .

Ways such as being a snatch thief , house robber , steeling cars and motorcycle . Some of them will go as far to killing people to get what they want . These youth will also resort to become a drug pusher and influence other users to keep on buying due to their personal interest which is getting more commission and buying their personal supplies . Second we will discuss the widespread of diseases due to the social problem among the Malaysian youth . Widespread of diseases are due to their over active social lives .

These over active social lives will eventually lead to an active sex life . Most youth not only in Malaysia but also in the world does not practice a save sex life , due to this careless attitude they are expose to many harmful diseases . Harmful diseases such as aids , hiv , syphilis and many more . These diseases are life threatening and there are no cure . At this point there are no use of regretting the choices that they have made as it is a point of no return . The best thing to do is , consult doctors on ways to prevent other people to get infected and prolonged their lives.

The widespread of diseases are a sad way to lose such precious young and vibrant live in our society . Third we will discuss the pre-marital pregnancy among the Malaysian youth . Pre-marital pregnancy are a problem that is escalating in our Malaysian youth everyday . The cause of these of are the same as widespread of diseases which over active social life and it will lead to practicing unsafe sex. The Malaysian youth these days do not think the consequences of their actions . Usually they do not welcome these miracle of god in their lives .

Almost everyday we hear the news on the television or read the newspaper about new born babies being left to die in the drain , dumpster , or even to be eaten by stray dogs and insect . The babies are left to die as they are not treated as a gift from god to human beings instead being trown away as rubbish . Some will not even wait for the baby to be born as it will be to troublesome to them , instead they will resort to abortion . These youth will spend money to cover up this wrong doings and instead of confronting the truth .

Fourth we will discuss the ostentatious spending among Malaysian youth . Ostentatious spending in a simple meaning are a ways for someone to show others that they are rich . These attitudes are spreading among the Malaysian youth like a virus . Instead of studying and finding good jobs , they are spending their parents money away like water and not even thinking of their future . Their mentality is such that they think by doing this society will give them respect . Instead of respect they are vulnerable to danger such as being influence to take drugs and many more .

Last but not least we will discuss how social problems among teens can slow down the development of our country . These social problems indirectly will effect the development of the country . One of the reasons are that I mention earlier was that our youth is our future , without them who are we going to leave rule our country in the future . The future seems dark without them being there to help build our country and economy to a better future . Besides that it will indirectly effect our tourism sector .

This is because of the crime rate escalating in the country , tourist will feel insecure coming to a country that the crime rates are high . Furthermore these social problems will cause our Malaysian youth to loose their creative and vibrant mind. Without them there will be no new technology invented and research done to improve our thinking skills or even the human race . These effect of social problem among the Malaysian youth that we discuss are at a crucial point in society . The government and society must figure out solutions to overcome this roots of all problems .]
