Waterloo Record January 21, 2018 Hope And Despair Looking for donations to help a family after a fire. The young family 21 year old Jonathan and 20 year old Mary with their two kids Curtis and Emanuel are looking for support and donations from other families to be able to recover lost possessions after the fire. They are asking for small donations of two dollars and are hoping to recover a 300 000 dollar home with the money they have received. The family of four are also asking for covers clothes for the kids.

Rosy Says" Three years ago I had the experience and decided to do the same thing by announcing and some helped me so much they let me stay in there house with my family to recover. This changed my life and gave me hope for the future. The day after our new house was paid for and we recovered everything our whole family was joyful.

This is why I would like to invite you to my house to stay and talk while your family recovers everything else." The donations can be sent to our website [www. SPhoto Taken: September 20, 2015 Young 22 year old Jack Will who arrived from florida just last week brought hope to a homeless man while he finished his shopping at a local mall close to 22nd street in Texas U. S. Story Another average day for Will started up just yesterday when he forgot to get milk for his breakfast and since the mall was 5 blocks away he decided to walk there, while he was

walking he came across a man with only a suitcase, guitar, a cover and the clothes that he had on sitting in front of the gate to a local park. Without thinking about him he passed and continued to walk towards the shopping mall.

When Will got to the mall he went to go for his groceries but while he was getting his groceries he heard an announcement from the exit of the store he was shopping at calling all customers for the start of spring sale all spring clothes and shoes were 50% off when Will heard this he thought about the man on the curb and how if that was him he would want someone to notice and give even a small amount of compassion. Therefore after he bought his milk he decided to buy some spring clothes and shoes for the homeless man. when he walked back he saw the man still sitting there so he decided to walk over to him and talk to him before he would give him the merchandise “ Hello” 22 “ Hi” Homeless “ I have something for you” 22 “ No it’s okay sir you really shouldn’t have” Homeless.

The gift that the young man gave was spring clothes shoes and 1000 dollars in cash. This young man shows christ like qualities by being gentle and sensitive to others and their needs not just thinking about himself but about the people around him, probably remembering if that was him he would like the same thing to happen to him. Assassination Memorial: Raj Ghat and associated memorials, India Description:

Gandhi was a man whom treated everyone equally even though he wasn't always

treated well. One of his biggest issues he faced was racial discrimination.

When Gandhi was traveling to his new job in a firm he was stopped in first

class even when he paid for his ticket they kicked him off because he

refused to move. This sparked disappointment so after his contract finished he

decided to make a change by non-violent protests and Indian rights.

food and estimated damages round up to 150 to 180 billion US dollars. This man first of all saved people who were struggling by donating money and deciding to work with the red cross handing out food and supplies to people who had been devastated. Chris says " The little thing you do can go a long way especially donations to help someone.

" **Healthy Lifestyles Changes During Adolescence** There are three stages which people go through during adolescence this is a list of all three stages of adolescence. The first stage people go through adolescence is the childhood stage which is what you receive from your family when you imitate their actions. The second stage in adolescence is transitional faith. There is lots of change in emotions and in beliefs with faith and others like Santa. The third stage in adolescence is the adult stage or " convictional faith" where your faith is what you live by defending your beliefs if you are catholic an example would be attending Church.

Sex In The Media The media affects all of us from the way we think about ourselves to the way we act. The first way we are affected by the media is how they present people in commercials and magazines they use photo shop to get rid of the imperfections and saying ex. best way to get rid of fat. Many of the models used are paid large amounts of money to say it works even though it might not work. This influences us to use these products to look like our role model or people we want to look like. The second way sex in the media influences us is by letting the behaviors of them or their daily routines become our changing how we think about ourselves making us feel bad.
