Prep Dam School India - February 2014 Volunteer was given an amazing opportunity from college to fly to India to take part in volunteer project helping in Catholic schools and orphanages in Lambi.

This was a life changing opportunity. We attended different schools. The first was a girls orphanage with ages ranging from 6 - 16 years. We played a few simple games with them, sang songs and then worked with them to produce a presentation on Nelson Mandela and freedom. They made posters inspired by the presentation. This gave me a chance to hear some of the girls life stories, and how coming to the boarding school was a way out of the slums for them for a while, like a long holiday.

The second school was similar, but girls and boys aged 5 years old. On our final day with the charity, we reached our hardest challenge, looking after 200, 5 year olds. We decided to do lots of arts and crafts, bracelet making painting and mask making along with sports such as cricket and football. We hope we made a difference to them, they certainly made a difference to me.
