

Chapter 1.1 – three cognitive learning styles

Cognitive Learning Style the general ways people prefer to have information presented in order to problem solve process, learn, and remember new information. Learning Modalities refers to cognitive learning styles such as visual, auditory, and kinesthetic. ON CHAPTER 1. 1 - THREE COGNITIVE LEARNING STYLES SPECIFICALLY FOR YOU FOR ONLY \$13. 90/PAGE Order Now Learning Style Preference a tendency to use a visual, auditory, or kinesthetic modality when there is a choice of ways to learn and process new information. Visual Learners learners who prefer to process and learn information in visual forms such as pictures, charts, lists, paragraphs, or other printed formats. Auditory Learners learners who prefer to process and learn by hearing and discussing information. Kinesthetic Learners learners who prefer to process and learn information through large and small muscle movements and hands-on experiences. Visualizing the processing of creating mental images of pictures and colors. Verbalizing the process of speaking or reading out loud to activate the auditory channel and build dilatory memory. Reciting the process of explaining information out loud, in complete sentences, and in your own words without looking at printed information. Developing Muscle Memory a kinesthetic process that involves performing multiple repetitions of steps or actions until the actions become automatic. See-Say-Do Strategy a multi sensory learning strategy that involves visual, auditory, and kinesthetic actions or processes.
