Sunny Health & Fitness is proudly importing and distributing high quality health and fitness products for over 15 years. Sunny Health & Fitness is very popular throughout the world for distributing excellent exercise and health equipment in much more affordable price. Sunny Health and Fitness offers all new SF-RW5515 Magnetic Rowing Machine for health and fitness conscious people.

It has added a new standard in home fitness. With a newly improved smoother and quieter magnetic tension system with 8 levels of adjustable tension, convenient large digital monitor console, fully padded seat, larger anti-slip foot pedals and built-on transportation wheels, the Sunny Health & Fitness SF-RW5515 Magnetic Rowing Machine can be the best choice for the people who wish for all at-home fitness equipment. It is designed for excellent convenience along with providing the challenging feel of an outdoor rowing.

Pros:

- Magnetic tension system allows to use it easily and can therefore provide a better workout.
- 8 Levels of adjustable resistance helps to increase or decrease resistance with a simple twist, so your rowing machine workout can remain challenging and effective throughout your fitness journey.
- LCD console is a big advantage.

It is be very useful for tracking progress. It shows all vital data such as Time, Count, Calories, Total Count, and Scan.

- Fully padded seat allows user to feel ultimate comfort. The cushioned seat gives users a comfortable rowing experience. It won't let you feel discomfort for a single moment.

- Non-slip grip handlebars allow users to have a perfect grip during rowing.
- Large anti-slip foot pedals help to move back and forth

smoothly. · Built-in transportation wheels allow to carry the machine easily where you wish.

· Full body exercise targets all major muscle groups · Provides low impact aerobic and cardiovascular exercise
Cons: · If the machine had Electromagnetic tension system, it would be easier to change the resistance level and it would be more comfortable to use.
