In Africa steemit is growing from strength to strength and I see steemit as the only way youths of Africa can provide a means of livelihood to ourselves. Africa needs steemit the way all humans need water to survive here on earth. In the recent years, we have seen so many meet ups all over Africa and also promoting steemit all around the globe.

Just a week ago, when I looked at the life of my brothers, family members and friends way of life, it pisses me off and I wondered if not for steemit, where would I have been by now?. So I've decided to organise a meet up in the little way I can just to change the lives of my people around me for the better since I was once like them and there was no job around my community for now. So I had to bring them to the steemit community. They were 8 in number but only 3 of their accounts have been activated awaiting the remaining 5 to be activated. 1516956540191.

A process where children acquire knowledge, self empowerment and realize their potentials, talents and also their weaknesses and vulnerabilities. The iconic Nelson Mandela once wrote " education is the greatest weapon that can change the world if adequately given to people of the world. In recent years steemit has now entered into our schools here on Africa.

Just last week after school hours I brought about steemit to my student and I advised them to wait after school hours for a brief rundown on steemit to their best of understanding. Few students waited and I make sure I impact

into them the scope of steemit and at the end of the brief introduction, I've 12 student register and awaiting activation.

jpgHe had his perfect time sharing with us all principles of steemit, how it's works, how we can be successful on steemit, the terminology of steemit and how we can be rewarded for our post. A lot of us were so interested and wanted to register immediately, and he promised to guide us on every step we decide to take because he so much believe in how steemit can change a lot of lives here in Nigeria.

jpgsteemit on offices or workplaceIn Africa most cryptocurrencies company do invites experienced steemians to come to their offices and give speech on steemit community.

The last company I work last before going for my nysc, I saw my bosses friend entered our office and was talking with my boss on steemit. the next day my boss came to our office and ask did anyone knows much about steemit, he said I wants to confirm from another person before investing into it. 1-2. jpgsourcesteemit in our marketIn some of our local market of this day, most trader now have a bitcoin blockchain in receiving payment for their goods bought. I've heard of such in strength and determination dollar, very soon they will have a stern account and starts promoting steemit right from the market..
