BUSTER**

Angela Cusumano November 28, 2010 Portfolio Review Committee

University of Illinois at Chicago 601 South Morgan Street Chicago, Illinois

60607 Dear Portfolio Review Committee, My first semester here at UIC I was

obligated to take English 160. I can honestly say I thought I would be easily

passing this course. I was used to the 5 paragraph essay in high school and

assumed that things would be the same in college. After writing my first

project for English 160 I felt invincible until I received my graded paper. I had

no idea what I had done wrong because I had done so well in high school

English. Finally I realized that I had to pick one theme for an entire paper and

elaborate on it completely. Even though it took some time I felt more

comfortable with this new writing style. I might not have taken huge leaps of

progress but, I know that I have progressed over the course of the semester.

I have learned that genre, language, situation and consequence are vital

when writing a college essay. This class has taught me a lot; things finally

started clicking and I was able to apply what I learned in my writing. I

learned that a person must always stick to the genre of their paper and

remember their audience. When the audience is recognized there is a certain

language that is appropriate for the situation. When this is accurately

executed the consequence will be one that is positive. I feel as if I have

grasped this concept and I am ready to learn more. Even though this course

was tough for me I can see the progress through in my writing. Before this

class I disliked English, but the challenge has made English much more

enjoyable for me. I believe that I am ready to move on to English 161. With

the foundation that English 160 has helped me build I am excited to see

what I will be able to accomplish in my writing career in the future. I am

confident that I will succeed in this following course. My portfolio will show

you that I am ready to move on and learn more. In my portfolio I hope you are able to see the progress I have made and worked hard for. Thank you for your time in advance for reviewing my portfolio, it is greatly appreciated.

Sincerely, Angela Cusumano
