In this research, I have selected the Lost World of Tambun a theme park of my choice. The Lost World of Tambun is an action-packed, exciting adventure with the most thrilling rides and attractions in Ipoh, Malaysia. Located in the historic town of Ipoh, in the middle of the North-South corridor in Perak, this place is not just a man made water theme park with beautiful Mayan architecture, gargoyles, and water canals, but is surrounded by 400-million-year-old natural limestone hills which offers a unique breathtaking view.

The World of Tambun is built by Sunway Group in 2006 at a cost of RM60 million, this theme park is well-designed with many unique features. It has many different “ playgrounds” and is certainly an added attraction to the popular Sunway Lagoon theme park in Kuala Lumpur.

Five main elements that make up this world of adventure are the Water Park, the Amusement Park, Lost World Hot Springs, the Tiger Valley and the Lost World Petting Zoo. It is a perfect escapade for family and city slickers who want to have a short break away from the city and enjoy the outdoor elements from man made beaches, to hot water springs, theme park rides; both wet and dry, a tiger valley where you get to see the wild beast roam freely, and beyond that jungle trekking, caving and tunneling activities.
