### **Company vision**

TO be fine brokering emblem within the retail enterprise inside the stock marketplace world .

### **MissiOn Of cOmpany**

Give power and training to individual investors to make better investment decisions through a top-level recommendation and higher offers. And it also focuses and does not claim knowledge in many things, which speaks with authoritarianism. So while someone says that investing in the stock market is a confusion, then our company simplifies the sale of shares.

The company is a power plant of economic services in India, with a strong presence in equity institutions and in the investment banking sector. And they checked the portfolio of confusing actions and holders for both.

## **Dematerialization account**

Dematerialization is the process of conversion of physical shares (share certificate) in an electronic form. Actions Once converted to a dematerialized form, they are kept in a Demat account. Sharekhane is a participant in the deposit.

- This means that we can hold shares in dematerialized form in Sharekhane.
  - But for this you need to buy the Demat account in Sharekhane.
