We used English to communicate with our lecturer n fellow friends so we don't see any problem while communicate. During our first class of English communication, Mr. Jeremy was our lecturer but after a few classes they switch our lecturer into Mr. Darrel. This issue make us uneasy for a few classes but we started to get used to it. The note given by Mr. Darrel was really useful and the explanation was very easy to understand. He also gave us a lot of examples to make us easy to understand.

Over all the classes is quite fun but we hope he can speed up more because he always said some specific sentence over and over again.
