The company's first vehicle, the Tesla Roadster, is an electric sports car and the highway-capable electric vehicle in the United States. As of December

<https://assignbuster.com/tesla-motors-inc-fundamental-company-report-essay-sample/>

31, 2009, the company had sold 937 Tesla Roadsters to customers in 18 countries, majority of which were sold to customers in North America and Europe. The Tesla Roadster has a battery pack capable of storing approximately 53 kilowatt-hours of usable energy and has a range of 236 miles on a single charge.

The company has also introduced a new Roadster model, the Tesla Roadster 2, with improved electric powertrain performance and interior styling; and Roadster Sport, which improves from zero to 60 miles per hour in 3.7 seconds. The company delivered its first right-hand drive version of the Tesla Roadster in January 2010.

The Tesla Model S

The company is designing the Model S to be a four door, five passenger premium sedan that offers performance, functionality and styling with zero tailpipe emissions. It is designing the Model S to include a third row with two rear-facing child seats. It intends to make the Model S available with three range variants - 160 miles, 230 miles, and 300 miles, on a single charge.

Customers and Selected Relationships

The company sells its cars primarily to individual customers. It has strategic or commercial relationships with Daimler and Lotus, as well as with various battery cell providers. In May 2009, the company entered into a development agreement with Daimler AG under which the company performed specified research and development services for the development of a battery pack and charger for Daimler's Smart fortwo electric drive. The company has been selected by Daimler to supply it with approximately 1,

000 battery packs and chargers to support a trial of the Smart fortwo electric drive in five European cities. Lotus provides the company with assembly and other manufacturing services. Company-Owned Sales

The company markets and sells its vehicles directly to consumers via the phone and Internet, in-person at its corporate events and through its network of Tesla stores. As of December 31, 2009, the company operated a total of 10 Tesla stores in the United States and Europe, located in Boulder, Chicago, Los Angeles, Menlo Park, Miami, New York, Seattle, London, Monaco, and Munich. Competition

The company, with respect to its Tesla Roadster, faces competition from automobile manufacturers, such as Porsche and Ferrari. In addition, upon the launch of its Model S sedan, it would face competition from existing and future automobile manufacturers in the luxury sedan market, including Audi, BMW, Lexus, and Mercedes. It also identifies competition from companies, such as Nissan; BYD Auto; General Motors; Toyota; Ford; Honda; Daimler; Renault; Mitsubishi; and Subaru. Significant Events

In July 2010, Tesla Motors, Inc. and Toyota Motor Corp. announced that the two companies have signed an agreement to initiate the development of an electric version of the RAV4. History Tesla Motors, Inc. was incorporated in 2003.
