

Final case term

Business

Background of the study Nowadays, computers have become part of our lives; it is obvious that most businesses still do not adapt the use of technology. Particularly in most video rental store, daily transactions are still done on manual transaction. Making an automated system in a video store has become a The Existing System Objectives of the System Video Club aims to lend obscure videos for both the members of Exclusive Golf and Country Club (E. G.) and the Gentlemen' Club (GO) with more variety on movie selection.

The video club needs to keep of its rental information and compute rental sees collected from VS., VS., DVD and Blubberty rented out to members. The main goal was to make members have a more convenient and comfortable environment to rent their videos. Specific Objectives To lend obscure videos to video club Scope of the System The scope of Video Club System is to record It includes the barrowing.
