Use Code: code: DELLBIZ579. When your small business needs a powerful workhorse desktop for multimedia, encoding or other intensive processes, this desktop will be your PC of choice. It's an incredible price at less than \$600 for one of Intel's higher-end powerful processors, a full 16GB of RAM for all your applications and a large 2TB hard drive for storage. It even includes Windows Pro for extra security and backup features. This is great for your small business and your home as well as it's be designed to take up much less space and be sleeker than conventional desktops. This is one of Dell's most popular and best selling deals at this price.

Protect your financials, sensitive business information and more with this shredder. While you cannot shred a 300-sheet document, you can destroy up to 12 sheets of paper at a time with a security level of P-4 security. This shreds paper down to 4mm by 12mm, which is very difficult to put back together or to decipher much information from without spending a ton of time. For a small business or even a very enthusiastic home shredder, this is a great machine as micro shredders cost a premium over their strip shredding counterparts.
