1. 0. Introduction

The aim of this guide is to assist in selecting a finance dissertation topic and to provide practical advice on how to go about writing a dissertation. Finance dissertations incorporate numerous topics covering various aspects of financial management issues. Typically, writing a finance dissertation involves questions such as how to report the features of the design and how to adequately report research results. Consequently, the latter part of the guide serves as a handy reference source to navigate the writer through the process.
