pdf; Evsh_rec_readings_11. pdf; Evsh_syllabus_11. pdf; //1_handout_11.

pdf// syllabus: particulars, course description, schedule: tentative, topics, consultation week about the course ? loose descriptive framework, some intro to linguistics - some notions and categories for basic generalizations

(later: practical, descriptive, theoretical) ? a new course - awareness of the similarities and differences between the target language and the mother tongue (learner, student, teacher) - reduced material ? my perspective -

goal: important, relevant, practically oriented, student-friendly ? EXAM

EXCLUSIVELY BASED ON THE LECTURES (no textbook yet) - attendance -

lecture notes ? ask questions! handouts by themselves: NOT SUFFICIENT! ?

recommended readings: much more material, clarification, (further)

background information - O'Grady et al. (1993): framework, English

phenomena - Rounds (2001): a good comprehensive practical Hungarian

grammar - page numbers: homepage ? 10 copies on reserve (+ Quirk et al.

(1979) A University Grammar of English) on (the comparison of) languages ?

language is an articulated system of arbitrary signs - a complex system of

subsystems ? phonetics/phonology > morphology > syntax - semantics ?

ule-governed (child, linguist, student) data > hypothesized rule > further

data > modified hypothesized rule > further data > rule 1.
