

# Being interest and classifies its state security goals;

[Business](#), [Strategy](#)

Being part to the universal brings threats and chances. National security is concerned about both. It is in a general sense about keeping Somalia from hurt. In the meantime, our national security exercises should distinguish and benefit as much as possible from new opportunities for our country.

Geographically Somalia is located horn of Africa or East Africa which surrounded by an increasingly extreme security circumstance and confronted by complex and serious national security challenges. Based on the lessons we have learned on operations as of late and our investigation of security advancements, we will adjust our national security instruments and make new applications on the armed as a feature of an entire of-government approach keeping in mind the end goal to safeguard against dangers to our security both at domestic and international. Keeping up the peace and security of Somalia and guaranteeing its survival are the essential responsibility of the country. Somalia wants to distinguish its national interests right now 2046 and future.

The approach first explanations Set of social values of Somali's strategy of proactive contribution to peace based on the values of global collaboration, it examines its national interest and classifies its state security goals; moreover, it also describes the situation definitions. Moreover, the policy identifies national security with diplomatic and protection policies at their core, based on appreciation that demand to overcome the challenges, threats and accomplish its objectives. Set of social value Looked with developing present day challenges, we should be set up to adjust and act. Somalia's present national security plans give a beyond any doubt

establishment, with strong, linked footings in diplomacy, protection, advancement, border protection, law authorization, and intelligence.

Our courses of action are wide based as well, with the Government working intimately with the states and regions, business and the group.

What's more, ensuring and the protecting Territories The Government's most essential obligation is the safeguard of the Somalia Territories, and insurance of our people and sovereignty. 4. 5 We will handle all dangers to the Somalia, our people and our interests and the nation will stay strong to, and an unfriendly domain for, the individuals who expect us hurt, regardless of whether they are state-based or non-state, for example, terrorists and criminals, and we will facilitate all levers of national power with the goal that the aggregate of our endeavors is more important than the basic parts. To guarantee our position in the regional and national for struggle of power making of the collective defense and security gave by our membership of IGAD (Intergovernmental Authority on Development) additionally upgrades the validity of our deterrence.

We will likewise work with our key partners over the world to duplicate the impacts of our own decided approach and increment our collective security so as to keep our borders, essential freedoms sovereignty and state interest.
