Psychology 2AP3: Abnormal Psychology - Major Disorders Course Outline,  
Jan. - April 2013 Time: Tues., Thurs., Fri., 2: 30 - 3: 20 pm Classroom: MDCL-  
1305 Instructor: Dick Day Office: Psych Bldg Room 404 Phone: 525-9140 ext.  
23006 Email: dayrich@mcmaster. ca Web site: http://intropsych. mcmaster.  
ca/psych2ap3 and on Avenue to Learn Course Objectives This course  
discusses the issues and controversies surrounding the meaning and  
categorization of psychological abnormality. We will also describe the major  
symptoms, hypothesized or suggested causes, and accepted treatments for  
major categories of mental disorder as described in the Diagnostic and  
Statistical Manual (DSM) of the American Psychiatric Association, version IV-  
TR, always keeping in mind the criticisms of this categorization system. The  
goals of the course include a deeper understanding of the nature, causes of,  
and current treatments for, psychopathology, and - more importantly - an  
appreciation for the tentative and incomplete nature of our understanding of  
mental illness. Required Text: Butcher et al. Abnormal Psychology 2AP3 (2nd  
Custom Edition for McMaster University). Pearson Canada. Recommended  
Text: Day, R. B. Psych 2AP3 Handbook. McMaster Custom Courseware.  
Course Outline: The table below shows the topics we will be covering, and  
the order in which we will be covering them. The dates when each topic will  
be discussed are approximate. Week of: Jan. 7 Jan. 14 Jan.. 14 Jan. 21 Jan. 28  
Jan. 28 Feb. 4 \* Feb. 11 Feb. 18 Feb. 25 Mar. 4 Mar. 11 \* Mar. 18 Mar. 25  
Mar. 25 Apr. 1 Apr. 8 Topic Introduction to Abnormal Psychology Disorders  
First Diagnosed in Childhood and Adolescence: Autism; ADD/ADHD Anxiety  
Disorders: Anxiety; Phobias. Obsessive Compulsive Disorder Break Week  
Somatoform & Dissociative Disorders: Conversion; Amnesia; Dissociative

Identity Disorder Mood Disorders: Major Depression; Bipolar Disorders Text Readings Chapters 1, 2 and 3 Chapter 16, pp. 568-573 and 585-590; Chapter 17 Chapter 5, pp. 162-180; Chapter 6 Chapter 8 Chapter 7 Schizophrenia Chapter 14 If time permits: Personality Disorders: Antisocial Personality, Psychopathy Classes end Wednesday, April 10th Chapter 11 Exam Period Final Examination Evaluation: There will be two in-class tests, worth 30% each, and a final exam worth 40%. Each in-class test will consist of approximately 40 multiple-choice questions. You will have the first 60 minutes of the class period to complete each test. The final exam will consist of 80 multiple-choice questions. You will have two hours for this test, which will take place during the end-of-term examination period. The tentative dates for the in-class tests are as follows (and are marked on the course outline with an asterisk next to the date). The actual dates - which depend on the availability of additional testing rooms - will be announced in class and posted on the online 2AP3 forum no less than two weeks before the actual date: In-class Test #1: Thursday, February 14th In-class Test #2: Thursday, March 21st IT IS YOUR RESPONSIBILITY TO MAKE SURE THAT YOU GET THIS INFORMATION. Missed Work: If you miss one of the in-class tests for documented medical or compassionate reasons, you should complete a Missed Work form in the office of the Associate Dean (Studies) of your Faculty. Once your Associate Dean has accepted your reason for absence, the remaining in-class test and the final exam will be reweighted (40%, 60%, respectively) to cover the missed in-class test. Discretionary notes will generally not be accommodated. Note also that the online student absence form (MSAF) can only be used once per term, only for medical absences, and

only for assignments worth less than 30%. That means that an MSAF will not excuse you from either of the midterm tests in this course. Final Grade Calculation and Adjustment: The final mark in Psychology 2AP3 will be computed by applying the following formula to the percentage scores on Test1, Test2, and Final Exam:  $(\text{Test1}\% \times .30) + (\text{Test2}\% \times .30) + (\text{Exam}\% \times .40) = \text{Final Course Mark}$  Apart from excused absences from an in-class test, every student will be assessed using the weighting formula shown above - with one exception: In assigning final letter grades for the course I look at the pattern of performance over the two in-class tests and the final exam. If the overall average, as calculated by the formula above, is on the borderline of the next higher letter grade (e. g. 49%, 66%, or 84%) and if the marks on both the final exam and one in-class test are at the next higher level (e. g., D-, C+, A), then I will assign the next higher letter grade. Apart from this one final adjustment, final course grades in Psych 2AP3 are not raised unless they have been calculated incorrectly. The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check their McMaster email and course websites weekly during the term and to note any changes. Academic Integrity and Academic Dishonesty: Academic dishonesty consists of misrepresentation by deception or by other fraudulent means and can result in serious consequences, e. g. the grade of zero on an assignment, loss of credit with a notation on the

transcript (notation reads: " Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. It is your responsibility to understand what constitutes academic dishonesty. For information on the various kinds of a academic dishonesty please refer to the Academic Integrity Policy, specifically Appendix 3, located at [http://www.mcmaster.ca/senate/academic/ac\\_integrity.htm](http://www.mcmaster.ca/senate/academic/ac_integrity.htm) The following illustrates only three forms of academic dishonesty: 1. Copying or using unauthorized aids on tests and examinations. 2. Plagiarism, e. g. the submission of work that is not one's own or for which other credit has been obtained. 3. Improper collaboration in group work.

Grading in Psychology 2AP3 The Final Course Mark will be translated into a letter grade according to the following table of equivalence:

% Score	90 - 100	85 - 89	80 - 84	77 - 79	73 - 76	Letter	A+	A				
	AB+	B	% Score	70 - 72	67 - 69	63 - 66	60 - 62	57 - 59	Letter	BC+	C	CD+
	%	Score	53 - 56	50 - 52	0 - 49	Letter	D	DF
